

Transforming Engineering Collaboration: How STP Consultants Optimised Workflow with Bluebeam & ARKANCE

IN THIS CUSTOMER SUCCESS STORY:

- Overview
- Challenge
- Solution: Bluebeam, Powered by ARKANCE | Features Implemented
- Impact Highlights
- Voices from the Team
- The ARKANCE Difference
- About ARKANCE

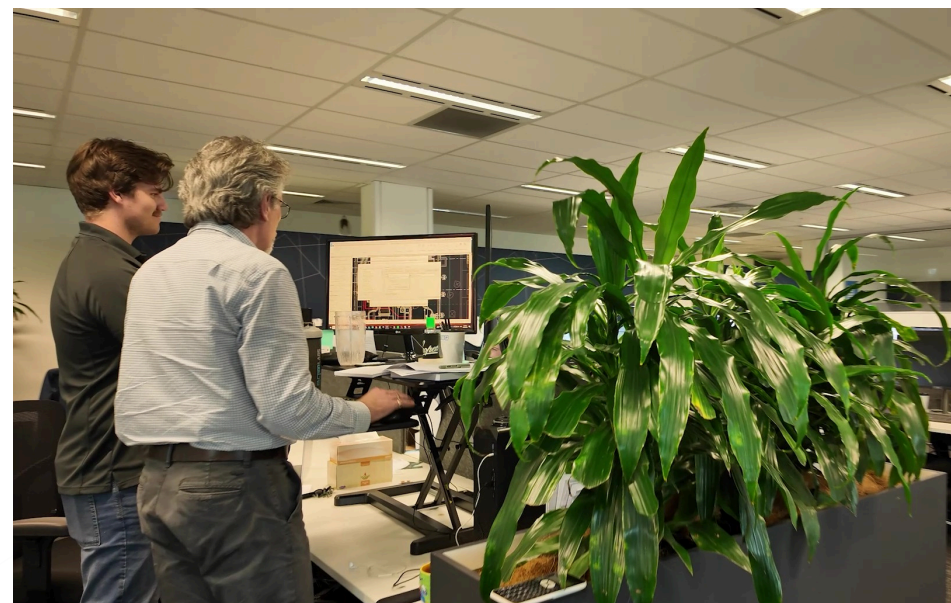

Overview

STP Consultants, a leader in structural engineering across Australia's largest infrastructure projects, partnered with ARKANCE to implement Bluebeam software – redefining collaboration, document management, and stakeholder engagement.

Challenge

With complex BIM files, scattered teams, and time-consuming revision processes, STP needed a more efficient way to manage documentation, track updates, and collaborate in real time.

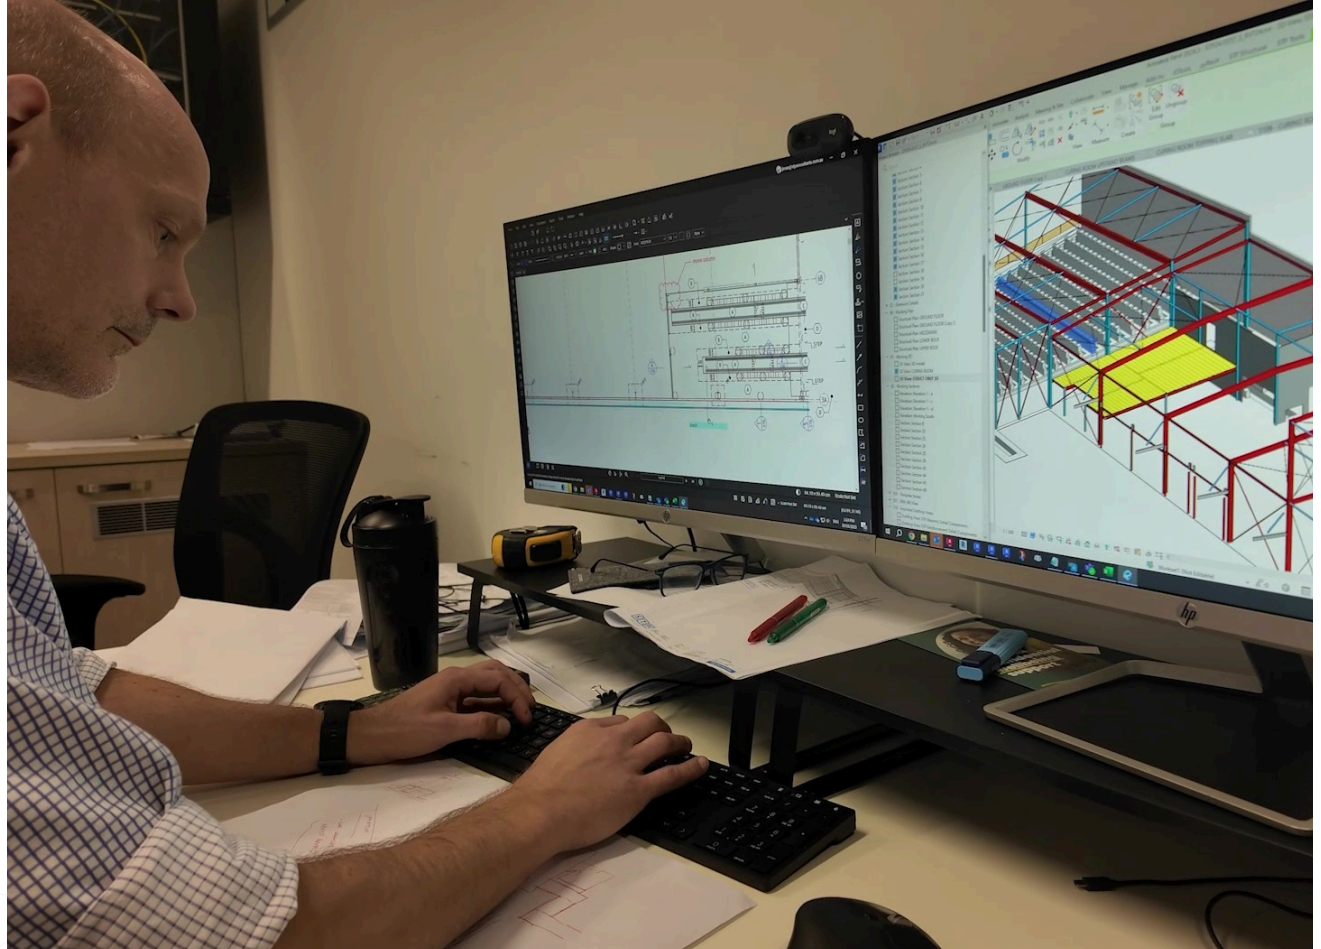

The Solution: Bluebeam, Powered by ARKANCE

Working with ARKANCE, STP implemented Bluebeam Revu and Studio Sessions across its teams - unlocking a new level of clarity, automation, and collaboration.

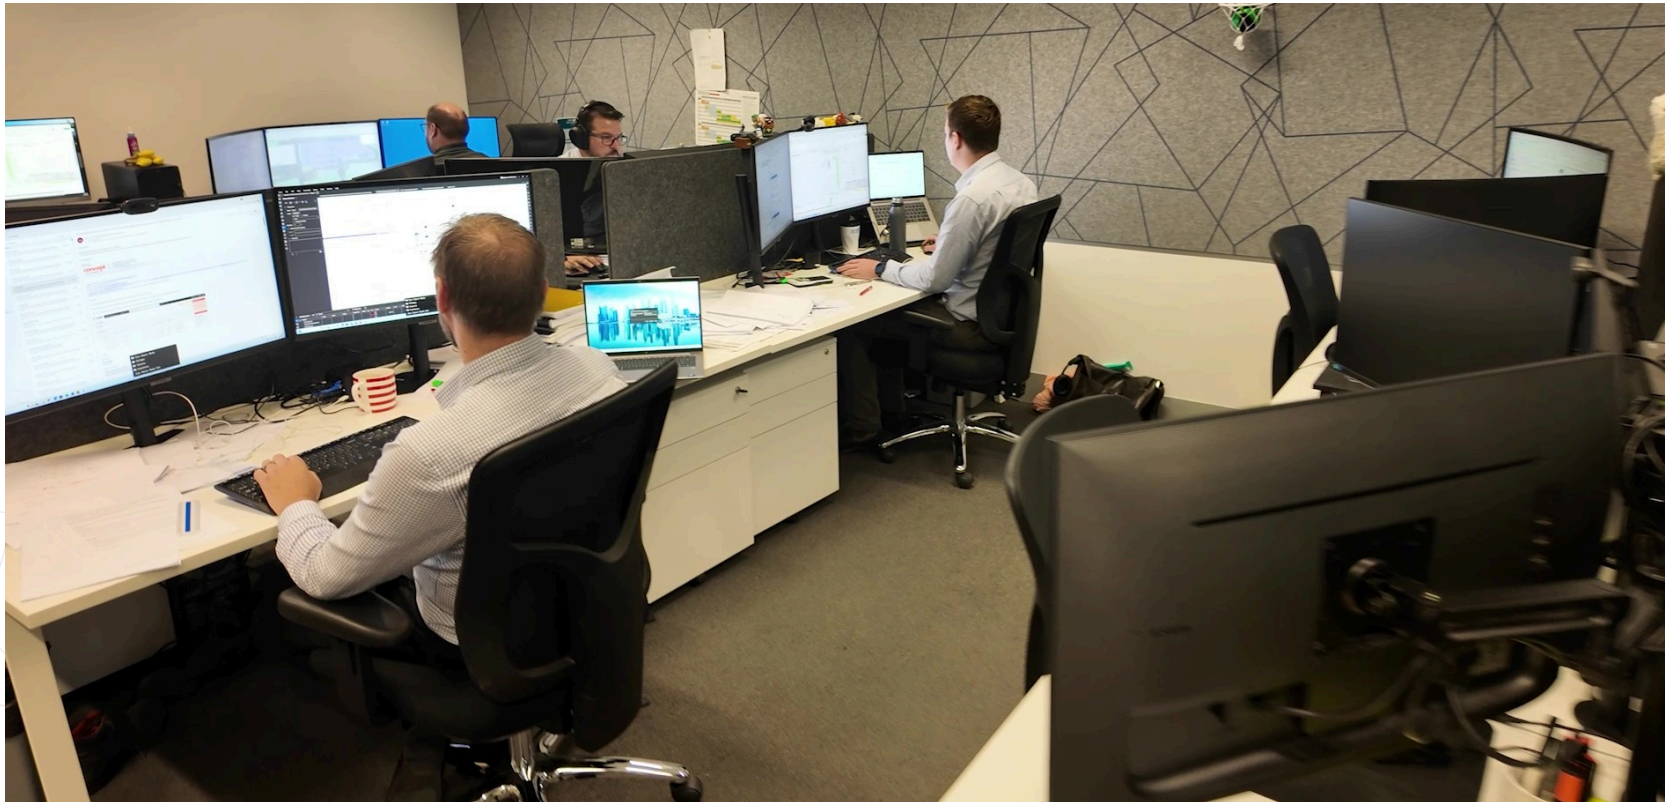

Key Features Implemented:

- Bluebeam Studio Sessions for real-time collaboration
- Automated markup and revision tracking
- Seamless integration with existing project management tools

Impact Highlights

- 50% faster document approvals
- Reduced errors from outdated versions
- Improved team productivity and stakeholder engagement
- More time spent on engineering, less on admin

Voices from the Team

Dave Hallam – BIM Manager

"Tracking revisions and keeping teams aligned has never been easier. Bluebeam has transformed how we manage BIM files."

Matt Learmonth – Senior Structural Engineer

"Studio Sessions make working with external stakeholders seamless, no matter where they are."

Jordan Craker – Senior Structural Engineer

"We've gained back valuable time. Automated workflows mean we can focus on what we do best – engineering."

Ray Smale – Senior Structural Engineer

"ARKANCE helped us integrate Bluebeam with our systems, reducing errors and boosting efficiency."

The ARKANCE Difference

From implementation to training and support, ARKANCE worked closely with STP to deliver tailored solutions and long-term value.

David Freeman - Sales Development Representative

"It's rewarding to see STP teams empowered with the tools they need to thrive."

Jayme Hayes - Strategic Growth Manager

"With ARKANCE, STP continues to raise the bar in engineering excellence."

About ARKANCE

ARKANCE is a global leader in digital construction solutions, helping engineering and design firms unlock their full potential through technology, training, and support.
